## **Personal competencies**

- Able to work in teams and cooperate with other members for best possible result
- Able to handle criticism and learn from it
- A keen approach to learning new technologies and techniques

## **Hobbies and interests**

I like to take on technical challenges and discover new ways to solve them. As a sociable person, I try my best to maintain good relations with all of my acquaintances and value true friendships. For pastime activities, I enjoy listening to and playing music (on guitar), watching movies and TV shows, cooking and going for relaxing walks through the city.
